

MINISTRY AUTOMATION PROPOSAL

ChurchFlow

Intelligent WhatsApp Ministry & Unified Church Management

A comprehensive digital engagement platform designed to automate first-timer retention, 24/7 member care, service reminder broadcasts, and live pastor communication.

24 / 7

Instant WhatsApp Care

Always-on responses to service times, hymns & giving.

98%

Broadcast Open Rate

Direct flyer delivery vs. low-open bulk SMS.

100%

Follow-up Capture

Zero lost paper cards or uncontacted visitors.

Prepared For:

Church Leadership, Pastoral Board & Media Department

RCCG Everflourishing Sanctuary Edition

The Ministry Challenge & The ChurchFlow Solution

In modern ministry, member engagement does not begin or end at the church doors on Sunday. Most churches struggle with disconnected communication channels, lost first-timer cards, and overburdened pastoral teams answering repetitive questions.

Traditional Church Communication	ChurchFlow Digital Platform
'L Paper visitor slips take days to process manually	' Instant QR code / WhatsApp digital connect card
'L Costly bulk SMS with low open rates (< 20%)	' Rich WhatsApp broadcasts with high-res flyers (> 95% open)
'L Late-night calls/texts asking for service times & location	' 24/7 instant replies with Google Maps and service schedules
'L Prayer requests scattered on paper slips & private DMs	' Centralized prayer dashboard with instant pastor alerts
'L Staff using personal WhatsApp lines (lost history)	' Unified official church WhatsApp with multi-staff inbox

Transforming 4 Critical Areas of Church Administration:

1. Visitor Retention Pipeline

Automatically enrolls first-timers, sends tailored welcome messages, and schedules follow-up tasks for the team.

2. 24/7 Automated Info Hub

Instantly serves church address with Google Maps, account numbers, weekly programs, and verified RCCG hymns.

3. Automated Flyer Broadcasts

Scheduled CRON notifications deliver high-resolution service flyers directly to members on WhatsApp before services.

4. Live Pastor Handoff & Care

Smart keyword detection flags urgent counseling & prayer needs as "Needs Pastor" on the leadership dashboard.

Complete Features: WhatsApp + Web Command Center

1. The Member Experience (On WhatsApp)

No apps to install. Members interact directly through their daily WhatsApp application.

Interactive Menu & Welcome Bot

Instant buttons for Service Times, Giving & Tithes, and "I am New Here" onboarding.

Google Maps Church Navigation

Direct GPS navigation links sent alongside exact street address & directions.

Official RCCG Hymnal & Anthems

Instant full-text lyrics for all 59+ RCCG hymns, Sunday School Anthem & RCCG Anthem.

Digital Tithes & Giving Accounts

Formatted bank details for Offerings, Tithes, and Special Building Projects.

Prayer & Counseling Intake

Members submit prayer requests which are logged directly to the pastoral review queue.

Event & Flyer Notifications

Members receive weekly program reminders with event flyers directly in chat.

2. The Leadership Command Center (Web Dashboard)

Accessible by Pastors, Follow-up Teams, and Administrators from any computer or tablet.

Real-Time WhatsApp Live Chat

View incoming conversations in real time with green WhatsApp badges and two-way staff reply box.

Needs Pastor Alert Queue

Automatic detection of counseling requests with one-click resolution and sound chime alerts.

Centralized Member Directory

Comprehensive profiles tracking attendance status, phone, email, and conversation history.

Flyer & Event Scheduler

Upload program flyers, set dates, and let the system automate multi-day broadcast reminders.

Implementation Plan & Next Steps

Turnkey 72-Hour Deployment Roadmap

01

Day 1: Setup & Number Registration

Register official Meta WhatsApp Business Cloud API on dedicated church phone number; configure Facebook Business Manager.

02

Day 2: Content & Information Ingestion

Input church service times, Google Maps coordinates, bank details, upcoming program flyers, and staff login accounts.

03

Day 3: Testing & Staff Walkthrough

Full end-to-end verification of WhatsApp bot, automated flyers, hymn searches, and 30-minute training session for follow-up staff.

04

Day 4: Live Ministry Launch

Print QR code for church entrance / Sunday screens and commence automated service broadcasts.

Prerequisites Checklist (What the Church Provides):

- 1. Dedicated SIM card / Phone number for Church WhatsApp (not currently linked to a personal phone app).
- 2. Facebook Business Page with admin access (to register Meta Business API).
- 3. Service schedule details, church address, bank accounts, and high-res flyers (JPG/PNG).
- 4. Names and email addresses of follow-up team members who will access the dashboard.
